INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
Hospital Authority of Valdosta
and Lowndes County, Georgia
Valdosta, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and fiduciary activities of the Hospital Authority of Valdosta and Lowndes County, Georgia (Authority), as of and for the years ended September 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Continued

1

Let's Think Together.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the Hospital Authority of Valdosta and Lowndes County, Georgia as of September 30, 2021 and 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, the Authority adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 84, Fiduciary Activities, as of October 1, 2020. Our opinion in not modified with respect to this matter.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 8 and the Schedule of Changes in Net Pension Liability and Related Ratios and Schedule of Pension Contributions on pages 60 through 64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2021, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Albany, Georgia December 14, 2021

rallin & Tucker, LLP

Management's discussion and analysis of the Hospital Authority of Valdosta and Lowndes County, Georgia's (Authority) financial performance provides an overview of the Authority's financial performance during the fiscal years ended September 30, 2021, 2020, and 2019. This discussion is intended to be read in conjunction with the Authority's financial statements and accompanying notes.

Financial Highlights

- The Authority's net position increased \$66.1 million in 2021 and \$24.6 million in 2020.
- The Authority reported a net operating income (loss) of \$(8.9) million for 2021 and \$9.5 million for 2020.

Using This Annual Report

The Authority's financial statements consist of three statements: a balance sheet; a statement of revenues, expenses, and changes in net position, and a statement of cash flows. These financial statements and related notes provide information about the activities of the Authority, including resources held by the Authority but restricted for specific purposes by contributors, grantors, or enabling legislation.

The Balance Sheet and Statement of Revenues, Expenses, and Changes in Net Position

In accrual accounting, revenues are reported when earned regardless of when cash is received, and expenses are reported as incurred irrespective of when they are paid. The balance sheet and statement of revenues, expenses, and changes in net position report the Authority's net position and changes in net position. Over time, increases or decreases in the Authority's net position are one indicator of whether its financial health is improving or deteriorating. Other nonfinancial factors should be considered, such as changes in the Authority's volume, payor mix and measures of the quality of service it provides to the community, as well as local economic and demographic factors to assess the overall financial health of the Authority.

The Statement of Cash Flows

The final required statement is the statement of cash flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, and financing activities.

Continued

The Authority's Net Position

The Authority's net position is the difference between its assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources reported on the balance sheet. The following table summarizes the balance sheets as of September 30, for the fiscal years ending 2021, 2020, and 2019:

Net capital asset additions	<u>\$</u>	20,427	\$	19,868	\$	12,265	

See Notes 7 and 8 to the financial statements for additional information about the capital assets and debt of the Authority.

In fiscal year 2021, the Covid-19 pandemic continued to impact the operations of the Authority's health system with high census numbers, increasing operating costs, and staffing shortages. In spite of the challenges created by the ongoing pandemic, the Authority's FY21 Balance Sheet remained strong. Cash and investments exceeded FY20 amounts by \$24 million. Total assets and deferred outflows of resources increased in FY21 by \$35.3 million over the prior year, while total liabilities decreased by \$32.4 million as the unearned revenue associated with the Cares Act funds received in FY20 was recognized as income in FY21. The Authority's net position increased by \$66.1 million in FY21 over FY20.

The Authority's high Covid-19 census was a contributing factor in the 13.2% increase in net patient service revenue over the prior year. The Authority's leadership team, with full support from the Board of Trustees, made the decision early in the pandemic to provide unequalled access to care for our community. In addition to caring for the patients in the communities the Authority serves, the Authority accepted transfers from facilities in 48 Georgia counties that did not have the capacity to care for their patients. The Authority utilized inpatient beds at all of its campuses including its Outpatient Plaza location which does not provide care for inpatients during normal operations. Inpatient beds at the Outpatient Plaza location were reopened under Governor Brian Kemp's Public

Continued

Health State of Emergency executive order. The system experienced its peak number of Covid-positive inpatients in August 2021 with 118 patients.

The Authority's revenue growth also contributed to the expansion of the SGMC Physician Network, which became operational during FY21. Twenty-three new physicians were employed during the fiscal year. The physicians represent numerous specialties including the underserved areas of Primary Care and Cardiology. In an effort to build a broader pipeline of physicians, especially in the rural communities, the Authority partnered with Mercer University School of Medicine to create a Graduate Medical Education program in internal medicine. The first class of residents will begin their training in 2022.

The Authority experienced an 18.4% increase in operating expenses in FY21, primarily in the areas of labor and supply costs. The Authority, like other hospitals across the nation, experienced significant staffing shortages in FY21. The Authority used overtime and premium shift differentials for existing staff members to cover vacant shifts. The cost of the premium shift differentials increased by \$7.8 million over the prior year. Overtime expense increased by \$2.4 million over the prior year. The Authority also entered into multiple agency nursing contracts to combat the nationwide nursing shortage to cover vacant shifts. Over 180 agency nurses were utilized in FY21 during the system's Covid peak in August 2021. The agency nurses were paid at Covid-19 crisis rates that were significantly higher than pre-pandemic rates. The Authority experienced an increase in agency nursing costs of \$14.5 million over FY20. Overall, the cost of the Authority's labor in FY21 increased 24.2% over the prior year.

In addition to the increase in labor costs, supply costs also increased 20.8% in FY21. The Authority incurred supply costs of \$100 million in FY21, an additional \$17.3 million over FY20. A significant portion of the supply expense increase occurred in drug costs as the system treated more critically ill patients. Drug supplies were up \$9.7 million over FY20. The Authority also supported its primary service area by holding drive-through vaccination lines and drive-through testing lines. System-wide, the Authority has provided more than 48,000 Covid-19 vaccinations since the beginning of the pandemic, and Covid tests performed by the system has exceeded 150,000 tests. As a result of the additional testing, FY21 lab supplies increased \$1.8 million over FY20. The Authority's estimated additional costs incurred as a result of the Covid-19 pandemic exceeded \$60 million for FY20 and FY21. The Authority received funding from the Cares Act and other grants to offset a portion of the additional costs related to the pandemic. In FY21, \$36.4 million in grants and contributions were recognized as income.

Fiduciary Fund

As described in Note 1 to the financial statements, the Authority adopted Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities* in 2021. Fiduciary funds are used to account for resources held for the benefit of individuals or units outside of the Authority. The Authority is the trustee or fiduciary responsible for assets, which can be used only for the trust beneficiaries per trust arrangements. The Authority is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the Authority's fiduciary activities are reported in separate statements of fiduciary net position and statements of changes in fiduciary net position. The accounting for fiduciary funds is much like that used for proprietary funds. The Authority's South Georgia Medical Center Retirement Plan (Note 11) is reported under the fiduciary fund. Since the resources of this fund are not available to support the Authority's own programs, the fund is not reflected in the Authority's financial statements. The statements of fiduciary net position and the statements of changes in fiduciary net position can be found on pages 14 and 15, respectively, of this report.

NOTES TO FINANCIAL STATEMENTS September 30, 2021 and 2020

1. Summary of Significant Accounting Policies

Organization

The Hospital Authority of Valdosta and Lowndes County, Georgia (Authority) owns and operates (1) South Georgia Medical Center (SGMC), a 330 licensed-bed acute care general hospital facility located in the City of Valdosta, Lowndes County, Georgia, including SGMC - Smith Northview (Smith), a healthcare facility located in the City of Valdosta, Lowndes County, Georgia; (2) SGMC - Berrien Hospital (Berrien), a 51 licensed-bed acute care general hospital facility and a 12 licensed geri-psychiatric bed unit located in the City of Nashville, Berrien County, Georgia; and (3) SGMC - Lanier Hospital (Lanier), a 25 licensed-bed critical access hospital facility providing acute and sub-acute care and a 62-bed skilled nursing facility, both located in the City of Lakeland, Lanier County, Georgia and other services and facilities.

The SGMC Physician Network, Inc. (SPN) was created January 25, 2019, and became operational November 1, 2020. SPN, a blended component unit of the Authority, is a Georgia not-for-profit corporation organized to support the functions and powers of the Authority and to operate a physician network. The Authority elects the SPN Board of Directors and controls the operations of the SPN.

Fiduciary Fund

Following the Authority's financial statements are separate financial statements for the fiduciary fund. The Pension Trust Fund fiduciary fund is excluded from the Authority's financial statements as these assets are held in a trust capacity for the benefit of employees of the Authority who participate in the South Georgia Medical Center Retirement Plan (Note 11) and cannot be used to support the Authority's programs.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Enterprise Fund Accounting

The Authority uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus.

The Authority prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB).

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

1. <u>Summary of Significant Accounting Policies, Continued</u>

Recently Adopted Accounting Pronouncements

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities* (GASB 84). GASB 84 establishes criteria for identifying fiduciary activities of all state and local governments. An activity meeting the criteria should be reported in a fiduciary fund in the financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. GASB 84 is effective for fiscal years beginning after December 15, 2018. However, the adoption of GASB 84 was delayed one year by the issuance and adoption of GASB 95. The Authority retroactively adopted this statement effective October 1, 2020 resulting in the presentation of the statement of Fiduciary Net Position - Pension Trust Fund and Statement of Changes in Fiduciary Net Position - Pension Trust Fund in the accompanying financial statements. The adoption had no impact to net position.

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interest - An Amendment of GASB Statements No. 14 and No. 61* (GASB 90). GASB 90 defines majority equity interest and specifies that a majority equity interest in a legally separate entity should be reported as an investment and measured using the equity method, if the government's holding of the equity interest meets the definition of an investment. All other holdings of a majority equity interest in a legally separate entity should be reported as a component unit. GASB 90 is effective for fiscal years beginning after December 15, 2019 with GASB 95 deferral. The adoption of GASB 90 had no material impact on the financial statements of the Authority.

Accounting Pronouncements Not Yet Adopted

In June 2017, the GASB issued Statement No. 87, *Leases* (GASB 87). GASB 87 establishes standards of accounting and financial reporting be lessees and lessors. GASB 87 will require a lessee to recognize a lease liability and an intangible right-to-use lease asset at the commencement of the lease term, with certain exceptions, and will require a lessor to recognize a lease receivable and a deferred inflow of resources at the commencement of the lease term, with certain exceptions. GASB 87 is effective for fiscal years beginning after December 15, 2019. However, the adoption of GASB 87 was delayed 18 months by the issuance and adoption of GASB 95. The Authority is currently evaluating the impact GASB 87 will have on its financial statements.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period* (GASB 89). GASB 89 requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred rather than being included in the cost of the capital asset. GASB 89 is effective for fiscal years beginning after December 15, 2019. However, the adoption of GASB 89 was delayed one year by the issuance and adoption of GASB 95. The Authority is currently evaluating the impact GASB 89 will have on its financial statements.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

1. <u>Summary of Significant Accounting Policies, Continued</u>

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid debt instruments with an original maturity of three months or less.

Short-Term Investments

Short-term investments include assets internally designated for professional liability claims and for bond payments that are anticipated to satisfy related obligations included in current liabilities.

Allowance for Doubtful Accounts

The Authority provides an allowance for doubtful accounts based on an evaluation of the overall collectability of the accounts receivable. As accounts are known to be uncollectible, the account is charged against the allowance.

Supplies

Supplies are valued at the lower of cost or market value, using the first-in, first-out method.

Noncurrent Cash and Investments

Noncurrent cash and investments include assets internally designated for capital improvements and for bond payments, over which the Board retains control and may at its discretion subsequently use for other purposes.

Investments in Debt and Equity Securities

Investments in debt and equity securities are reported at fair value. Interest, dividends, and gains and losses, both realized and unrealized, on investments in debt and equity securities are included in investment income when earned.

Capital Assets

Capital asset acquisitions are recorded at cost. Contributed capital assets are reported at their acquisition value at the time of donation. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization in the financial statements. Depreciation is provided over the estimated useful life of each depreciable asset (per the American Hospital Association (AHA) Guidelines for Depreciable Assets) and is computed using the straight-line method.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

1. <u>Summary of Significant Accounting Policies, Continued</u>

Capital Assets, Continued

The AHA Guidelines generally provide the following range in asset life by category:

Land improvements10 to 20 yearsBuildings and improvements10 to 40 yearsEquipment3 to 15 years

Impairment of Capital Assets

The Authority evaluates on an ongoing basis the recoverability of its assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Capital asset impairment is considered whenever indicators of impairment are present, such as the decline in service utility of a capital asset that is large in magnitude and the event or change in circumstance is outside the normal life cycle of the capital asset.

The Authority did not record any impairment losses for the years ended September 30, 2021 and 2020.

Costs of Borrowing

Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets.

Financing Costs

Costs incurred in connection with the issuance of long-term debt are expensed in the period incurred.

<u>Deferred Outflows and Inflows of Resources</u>

Deferred outflows and inflows of resources represent the consumption or acquisition, respectively, of the Authority's net assets applicable to a future reporting period.

Deferred inflows of resources consist of components related to the defined benefit pension plan and the unamortized gain on bond defeasance and deferred outflows of resources consist of goodwill, net of accumulated amortization, the unamortized loss on bond defeasance, and components related to the defined benefit pension plan as of September 30, 2021 and 2020. See Notes 8. 9. and 11 for additional information.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

1. <u>Summary of Significant Accounting Policies, Continued</u>

Net Pension Liability (Asset)

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pension items and pension expense, information about the fiduciary net position of the defined benefit plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Compensated Absences

The Authority's employees earn paid time off at varying rates depending on years of service. Employees may accumulate paid time off up to a specified maximum. Employees who leave in good standing will be eligible for payment of paid time off upon their resignation.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Provider Relief Fund grants received through the CARES Act are reported as unearned revenue until all applicable eligibility requirements are met. See Note 19 for additional information.

Net Position

Net position of the Authority is classified into three components - *net investment in capital assets, restricted* and *unrestricted*. These classifications are defined as follows:

- Net investment in capital assets This component of net position consists of capital
 assets net of accumulated depreciation and reduced by the current balances of any
 outstanding borrowings used to finance the purchase or construction of those assets.
- Restricted This component of net position consists of noncapital assets reduced by liabilities and deferred inflows of resources related to those assets that must be used for a particular purpose, as specified by creditors, grantors or contributors external to the Authority.
- Unrestricted This component of net position consists of the remaining net amount of
 assets, deferred outflows of resources, liabilities, and deferred inflows of resources that
 do not meet the definition of net investment in capital assets or restricted.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

1. <u>Summary of Significant Accounting Policies, Continued</u>

Net Patient Service Revenue

The Authority has agreements with third-party payors that provide for payments to the Authority at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

The Authority provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Authority does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

Operating Revenues and Expenses

The Authority's statement of revenues, expenses and changes in net position distinguishes between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care services - the Authority's principle activity. Nonexchange revenues, including investment income and grants are reported as nonoperating revenues. Operating expenses are all expenses incurred to provide health care services, other than financing costs.

Grants and Contributions

Revenues from grants and contributions (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as nonoperating revenue. Amounts restricted to capital acquisitions are reported after excess revenues (expenses).

Restricted Resources

When the Authority has both restricted and unrestricted resources available to finance a particular program, it is the Authority's practice to use restricted resources before unrestricted resources.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

1. <u>Summary of Significant Accounting Policies, Continued</u>

Income Taxes

The Authority is a public corporation and is also exempt from taxation under Section 501(a) of the Internal Revenue Code. Therefore, no provision for income taxes is made in the financial statements. SPN has incurred operating losses for tax purposes and has not recorded a current or deferred tax provision due to significant operating loss (NOL) carryforwards which would be utilized to offset any potential tax liabilities generated from future taxable income. At September 30, 2021, a significant NOL carryforward exists and is available for the offset of future taxable income. No asset has been recognized related to this NOL carryforward due to expected continued operating losses.

Risk Management

The Authority is exposed to various risks of loss from torts. The Authority purchases commercial insurance with a self-retention amount to protect itself against such risks. The provision for estimated professional liability claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported. See Note 14 for a summary of the professional and general liability program. The Authority is self-insured for employee health and accident benefits, and purchases stop loss coverage for large claims. The expenses for employee health claims include the costs of actual claims incurred and an estimate of the claims incurred but not reported. See Note 13 for a summary of the employee health plan. The Authority has purchased commercial insurance for claims arising from theft of, damage to, and destruction of assets; business interruption; errors and omissions; and natural disasters.

Fair Value Measurements

GASB Statement No. 72 - Fair Value Measurement and Application defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is an exit price at the measurement date from the perspective of a market participant that controls the asset or is obligated for the liability. GASB 72 also establishes a hierarchy of inputs to valuation techniques used to measure fair value. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. GASB 72 describes the following three levels of inputs that may be used:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets and liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- Level 2: Observable inputs such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

1. <u>Summary of Significant Accounting Policies, Continued</u>

Fair Value Measurements, Continued

• Level 3: Unobservable inputs when there is little or no market data available, thereby requiring an entity to develop its own assumptions. The fair value hierarchy gives the lowest priority to Level 3 inputs.

2. <u>Charity Care and Discount for Uninsured Patients</u>

The Authority maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services and supplies, and equivalent service statistics. The following information measures the level of charity care provided during the years ended September 30, 2021 and 2020.

	(Dollars In Thousands)				
		<u>2021</u>		2020	
Charges foregone, based on established rates	<u>\$</u>	68,021	<u>\$</u>	54,392	
Estimated costs and expenses incurred to provide charity care	<u>\$</u>	21,484	\$	17,670	
Equivalent percentage of charity care patients to all patients served		<u>4.7%</u>		<u>4.6%</u>	

The Authority provides a discount for uninsured patients. For fiscal years ended September 30, 2021 and 2020, the charges foregone and the estimated costs of services related to this discount were as follows:

	(Dollars In Thousands)				
		<u>2021</u>	<u>2020</u>		
Charges foregone, based on established rates	\$	11,833	\$	13,658	
Estimated costs and expenses incurred to provide discounts for uninsured patients	\$	3,738	\$	4,437	
Equivalent percentage of discounts to uninsured patients to all patients served		<u>0.8%</u>		<u>1.1%</u>	

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

3. Net Patient Service Revenue

The Authority has agreements with third-party payors that provide for payments to the Authority at amounts different from its established rates. The Authority does not believe that there are any significant credit risks associated with receivables due from third-party payors.

Revenue from the Medicare and Medicaid programs accounted for approximately 46% and 15%, respectively, of the Authority's net patient revenue for the year ended 2021 and 48% and 16%, respectively, of the Authority's net patient revenue for the year ended 2020. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

The Authority believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. However, there has been an increase in regulatory initiatives at the state and federal levels including the initiation of the Recovery Audit Contractor (RAC) program and the Medicaid Integrity Contractor (MIC) program. These programs were created to review Medicare and Medicaid claims for medical necessity and coding appropriateness. The RAC's have authority to pursue improper payments with a three year look back from the date the claim was paid. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs.

A summary of the payment arrangements with major third-party payors follows.

Medicare

For SGMC and Berrien, inpatient acute care, outpatient and rehabilitation services rendered to Medicare program beneficiaries are paid at prospectively determined rates per diem/discharge as applicable. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors.

Inpatient psychiatric services rendered to Medicare program beneficiaries are paid at prospectively determined per diems.

Lanier was granted critical access designation by the Medicare program in 2002. The critical access designation allows Lanier to have up to twenty-five beds interchangeable between acute care inpatient services and swing bed services and places certain restrictions on daily acute care inpatient census and an annual average length of stay of acute care inpatients. As a critical access hospital, payments for inpatient and outpatient services are based on the reasonable costs of providing such services.

Nursing Home services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system called Resource Utilization Groups (RUGs). Effective October 1, 2019, the services rendered to Medicare program beneficiaries will be paid based on a patient-driven payment methodology.

Continued

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

3. Net Patient Service Revenue, Continued

Medicare, Continued

The Authority is reimbursed for certain reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Authority and audits thereof by the Medicare Administrative Contractor (MAC). The Authority's classification of patients under the Medicare program and the appropriateness of their admission are subject to an independent review by a peer review organization under contract with the Authority. Medicare cost reports for certain facilities remain open back to September 30, 2015.

Medicaid

Inpatient acute care services rendered to Medicaid program beneficiaries are paid at a prospectively determined rate per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Outpatient services rendered to the Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology. The Authority is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Authority and audits thereof by the Medicaid fiscal intermediary. The Authority's Medicaid cost reports have been audited by the Medicaid fiscal intermediary through September 30, 2018.

The Authority contracts with certain managed care organizations to receive reimbursement for providing services to selected enrolled Medicaid beneficiaries. Payment arrangements with these managed care organizations consist primarily of prospectively determined rates per discharge, discounts from established charges, or prospectively determined per diem rates.

Nursing Home services rendered to Medicaid program beneficiaries are paid at a prospectively determined rate per day. This rate is determined principally by the cost per day reflected in cost reports submitted to and audited by the Medicaid fiscal intermediary adjusted for certain incentives and inflation factors.

During 2010, the state of Georgia enacted legislation known as the Provider Payment Agreement Act (Act) whereby hospitals in the state of Georgia are assessed a "provider payment" in the amount of 1.45% of their net patient revenue. The Act became effective July 1, 2010, the beginning of state fiscal year 2011. The provider payments are due on a quarterly basis to the Department of Community Health. The payments are to be used for the sole purpose of obtaining federal financial participation for medical assistance payments to providers on behalf of Medicaid recipients. The provider payment resulted in an increase in hospital payments on Medicaid services of approximately 11.88%. Approximately \$4.8 million and \$4.8 million relating to the Act is included in services in the accompanying statements of revenues, expenses and changes in net position for the years ended September 30, 2021 and 2020, respectively.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

3. Net Patient Service Revenue, Continued

Medicaid, Continued

The Authority participates in the Georgia Indigent Care Trust Fund (ICTF) Program. The Authority receives ICTF payments for treating a disproportionate number of Medicaid and other indigent patients. ICTF payments are based on the Authority's estimated uncompensated cost of services to Medicaid and uninsured patients. The amount of ICTF payments recognized in net patient service revenue was approximately \$10.0 million and \$7.8 million for the years ended September 30, 2021 and 2020, respectively.

The Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 (BIPA) provides for enhanced payments to Medicaid providers under the Upper Payment Limit (UPL) methodology. Subsequent to the implementation of the UPL methodology, federal budget concerns have led to reconsideration of the BIPA legislation with possible elimination or reduction of enhanced Medicaid payments. The financial statements include enhanced payments for 2021 and 2020 of approximately \$6.4 million and \$3.3 million, respectively.

Other Arrangements

The Authority has also entered into payment agreements with certain commercial insurance carriers and preferred provider organizations. The basis for payment to the Authority under these agreements includes discounts from established charges and prospectively determined rates per discharge.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

3. <u>Net Patient Service Revenue, Continued</u>

The following is a summary of uncompensated services and a reconciliation of gross patient charges to net patient service revenue for 2021 and 2020.

	(Dollars In Tho	ousands)
	<u>2021</u>	<u>2020</u>
Gross patient charges	<u>\$ 1,448,644</u> <u>\$</u>	1,189,964

	Φ.					
Total cash and investments	\$	339,732	\$	315,408		

<u>Disclosures Relating to Interest Rate Risk</u>

The Authority manages its exposure to declines in fair values from rising interest rates by investing in debt securities with short to intermediate maturities. The Authority's investment policy requires that the duration of fixed income and debt securities be no longer than 125% of the Barclays Government/Credit Intermediate Index. The weighted average maturity presented below is calculated based on the maturity date of the security. For many of the fixed income and debt securities, the expected life is shorter than the maturity date as presented below.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

4. Cash and Investments, Continued

Disclosures Relating to Interest Rate Risk, Continued

As of September 30, 2021 and 2020, the Authority had the following investments in debt securities and weighted average maturities:

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. The Authority manages its exposure to credit risk by requiring in its investment policy, that the average quality rating of bonds be investment grade A or better as judged by a nationally recognized rating agency. In addition, the Authority's policy requires that no more than 10% of the fixed income securities be below investment grade Baa.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

4. Cash and Investments, Continued

Disclosures Relating to Concentration of Credit Risk

The Authority's investment policy prohibits investments in any one issuer (other than U.S. Treasury securities, mutual funds, and money market funds) that are in excess of 10% of the Authority's total investments. Accordingly, the Authority did not own investments from any one issuer in excess of 10% as of September 30, 2021 and 2020.

<u>Disclosures Relating to Custodial Credit Risk</u>

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Authority will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. State law requires the collateralization of deposits in excess of insurance. As of September 30, 2021, the Authority's deposits were entirely insured or held by financial institutions that participate in the Georgia Secure Deposit Program (SDP). The SDP is a multibank contingent liability pledging pool to protect public deposits. The program is administered by Georgia Banker's Association Services, Inc. Under the program, a combination of the liquidation of pledged collateral and a guarantee from all other banks participating in the contingent liability pool will cover any loss exceeding FDIC insurance limits.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Authority will not be able to recover the value of its investment or collateral securities that are in the possession of another party. At September 30, 2021 and 2020, the Authority owned \$252.7 million and \$218.8 million, respectively, in securities registered through the brokerage firm's trust department. Securities are held in the Authority's name.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

5. <u>Fair Value Measurements</u>

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based upon the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs and Level 3 inputs are significant unobservable inputs. The fair values of assets measured on a recurring basis at September 30, 2021 and 2020 are as follows:

	(Dollars in Thousands) Fair Value Measurements at Reporting Date								
<u>September 30, 2021</u>	Fair Value	Level 1	Level 2	Level 3					
Equity securities: Common stock Foreign stock	\$ 117,902 16,252	\$ 117,902 16,252	\$ - -	\$ - -					
Total equity securities	134,154	134,154							
Debt securities: U.S. government obligations Mortgage-backed securities Collateralized mortgage obligations Corporate bonds	15,298 3,335 5,428 14,049	- - - -	15,298 3,335 5,428 14,049	- - - -

Depreciation expense for the years ended September 30, 2021 and 2020 amounted to approximately \$23.8 million and \$22.7 million, respectively. Construction and equipment contracts of approximately \$1.1 million exist for the renovation and construction of facilities and purchase of equipment. At September 30, 2021, the remaining commitment on these contracts approximated \$260 thousand.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

In August 2019, the Authority issued Refunding Revenue Certificates, Series 2019A and Series 2019B, in the amount of \$42.6 million and \$96.9 million, respectively. The Series 2019A Certificates were issued for the purpose of the refunding of the Series 2007, 2010, and 2010 Refunding Certificates. The Series 2019B Certificates were issued for the purpose of the advance refunding of the Series 2011B Certificates. Proceeds of the Series 2019A and 2019B Certificates were also used for related costs incidental to the financing, including costs of issuance. The purpose of the refundings was to take advantage of lower interest rates, reduce the Authority's overall cash flows related to outstanding debt and to obtain a debt service guarantee from the County. The transaction resulted in an economic gain of approximately \$29.3 million and reduced total debt service payments over the scheduled maturities by approximately \$59.3 million.

The Series 2007, 2010, and 2010 Refunding Certificates were refunded on August 28, 2019. On August 28, 2019, approximately \$151.8 million was deposited into an irrevocable escrow with the Bank of New York Mellon Trust Company, N.A. to purchase U.S. Government Obligations sufficient to pay principal and interest when due on the Series 2011B Certificates until their earliest date of optional redemption, October 1, 2021. As a result, the 2011B Certificates are considered to be defeased and the escrow assets and the liability for the Certificates has been removed from these financial statements. At September 30, 2021 and 2020, \$137.1 million and \$138.5 million of the defeased Certificates remain outstanding, respectively.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

8. <u>Long-Term Debt, Continued</u>

The Series 2019A and 2019B Certificates were issued pursuant to a Trust Indenture (Certificate Indenture), dated August 1, 2019, between the Authority and Regions Bank, Atlanta, Georgia (Trustee), as trustee. The Series 2019 Certificates are limited obligations of the Authority secured by the Trust Estate, which includes (i) all amounts on deposit from time to time in the funds created under the Certificate Indenture, (ii) all rights, title and interest of the Authority in the Series 2019 Master Note (defined below), including all payments thereunder, and (iii) all rights, title and interest of the Authority in the intergovernmental contract, dated August 1, 2019 (Contract) between the Authority and Lowndes County (County), including all payments thereunder.

The Authority has issued a Master Note securing the Series 2019 Certificates (2019 Master Note). The Series 2019 Master Note is issued pursuant to a Master Trust Indenture, dated as of August 1, 2019 as supplemented by a Supplemental Master Trust Indenture No. 1, dated as of August 1, 2019 (collectively, the Master Indenture), each between the Authority, as the sole member of the Obligated Group, and Regions Bank, Atlanta Georgia, as master Trustee (Master Trustee). As security for the Series 2019 Master Note, the Obligated Group has created a first pledge of and lien on the gross revenues in favor of the Master Trustee. The Obligated Group may issue additional obligations from time to time under the Master Indenture, which obligations will be secured by a lien on the gross revenues that is on parity with the lien securing the Series 2019 Master Note.

Pursuant to the Contract, the County is obligated to make payments, if necessary, in amounts sufficient to enable the Authority to provide for the payment of principal and interest on the Series 2019 Certificates as the same become due and payable at maturity or by proceedings for mandatory redemption. In order to assure such payments as to the Series 2019 Certificates, the County has agreed to levy annually an ad valorem tax, within the seven mill limitation specified in the Georgia Hospital Authorities Law or at such higher rate as may be allowed in the future.

As a result of the Series 2019A refunding the Series 2007, 2010, and 2010 Refunding Certificates, the Authority recognized a gain on defeasance of approximately \$575 thousand. The gain is included in the deferred inflows of resources on the balance sheet. The gain on bond defeasance is reported net of accumulated amortization expense and is amortized over 168 months, which is consistent with the remaining life of the new debt as it is shorter than the defeased debt. Amortization expense is reported in interest expense on the statement of revenues, expenses and changes in net position.

As a result of the Series 2019B advance refunding the Series 2011B Certificates, the Authority recognized a loss on defeasance of approximately \$10.1 million. The loss is included in the deferred outflows of resources on the balance sheet. The loss on bond defeasance is reported net of accumulated amortization expense and is amortized over 84 months, which is consistent with the remaining life of the defeased debt as it is shorter than the new debt. Amortization expense is reported in interest expense on the statement of revenues, expenses and changes in net position.

Continued

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

8. <u>Long-Term Debt, Continued</u>

Under the terms of the Master Trust Indenture, the Authority is required to satisfy certain measures of financial performance. The Master Trust Indenture contains provisions that, if the Authority falls below such measures for any two consecutive years, then an event of default shall exist. In an event of default, the lender may declare all outstanding obligations to be due and payable immediately. As of September 30, 2021, the Authority is not considered in default in accordance with the provisions delineated in the Master Trust Indenture.

In 2021 and 2020, the Authority entered into capital lease agreements under which the Authority leases various equipment. The monthly lease payments of approximately \$96 thousand end in FY 2026.

In 2019, the Authority entered into an agreement under which the Authority's facilities were renovated by a third-party at a cost of approximately \$2.5 million. Instead of repayment, the third-party is forgiving the cost of renovations monthly over the term of the contract. If the contract is terminated prior to the end of the term, the Authority will be required to pay the unforgiven balance. The Authority recognizes the forgiveness of the debt as contribution income, which is reported in other revenue on the statement of revenues, expenses and changes in net position. The related depreciation expense of the renovated capital assets is recorded in depreciation expense on the statement of revenues, expenses and changes in net position.

The debt service requirements of long-term debt at September 30, 2021 are as follows:

		(Dollars In Thousands)								
		Revenue (ates		Capital Lease and Other Financing Obligations

Total goodwill	\$	1,340	\$		\$		\$	(142)	\$	1,198

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

9. Goodwill, Continued

Pursuant to the implementation of GASB No. 69, the Authority reclassified goodwill from other assets to deferred outflows of resources and established an attribution or amortization period for each component of goodwill. Because a substantial portion of the acquisition consisted of capital assets, the Authority determined the amortization period based upon an estimate of the remaining useful lives of the capital assets as of the date of implementation of GASB No. 69. The amount amortized in 2021 and 2020 is reported in depreciation and amortization on the statement of revenues, expenses, and changes in net position.

10. Related Party Transactions

Because of the existence of common trustees and other factors, the Authority, South Georgia Medical Center Foundation, Inc. (Foundation) and South Georgia Health Alliance, Inc. (Alliance) are related parties.

The Foundation is authorized by SGMC to solicit contributions on its behalf. In its general appeal for contributions to support the community's providers of health care services, the Foundation also solicits contributions for certain other related health care institutions. In the absence of donor restrictions, the Foundation has discretionary control over the amounts, timing, and use of its distributions. During the years ended September 30, 2021 and 2020, SGMC provided work space, utilities and certain personnel free of charge to the Foundation.

The Alliance operates the not-for-profit entities of the Hospice of South Georgia, an organization providing supportive care for terminally ill patients and their families, Langdale Place, a residential care facility, and The Tree House, a consignment store. All funds raised in excess of operating needs are designated by the Alliance Board for health care purposes.

In addition to the above, included in other receivables on the balance sheet are related party receivables in the amounts of \$5.9 million and \$6.9 million for fiscal years 2021 and 2020, respectively. These amounts due are related to purchased goods and services on behalf of the related parties.

11. Retirement Plans

The Authority has a defined contribution plan under Section 401(k) of the Internal Revenue Code, South Georgia Medical Center Money Purchase Retirement Plan, which allows employees to defer income taxes on a portion of their earnings. The Authority has no liability for investment losses incurred by the plan. The assets of the plan are in the individual participant's name and are not subject to claims by creditors of the Authority. In 2004, the Authority created an additional deferred compensation plan structured similarly to the 401(k) plan. This plan, South Georgia Medical Center 457 Plan, was established under Internal Revenue Code Section 457(b). Total participant contributions to the 401(k) and 457(b) plans were approximately \$7.5 million and \$6.1 million in 2021 and 2020, respectively. Total contributions by the Authority on behalf of the participants were approximately \$1.5 million and \$1.3 million in 2021 and 2020, respectively. The Authority makes a matching contribution equal to 50% of a participant's elective deferrals, not to exceed 2% of a participant's compensation. Participants are vested immediately in their contributions plus actual earnings (losses) thereon. Vesting in the Authority's matching contributions occurs in 20% increments over five years of service. Administrative expenses for the above plans are borne by the participants.

The Authority also has a single employer defined benefit pension plan, South Georgia Medical Center Retirement Plan (Plan), covering substantially all of its employees. The Authority's trustees have the authority to establish and amend benefit provisions. For more information on the plan, contact South Georgia Medical Center administration.

The Plan provides retirement, death, and disability benefits. Retirement benefits are calculated as 1% of high-five year average monthly compensation per year of service at normal retirement date, plus 0.65% of high-five year average monthly compensation in excess of the integration level for each year of service not to exceed 40 years. For service prior to January 1, 1974, one-third of those years of service are credited for benefit accrual. The integration level for years of service prior to December 31, 2003 is \$500; for years of service after December 31, 2003, the integration level is monthly social security covered compensation for a person who has attained age 65. The normal retirement date falls on the first of the month coincident with or following the attainment of social security retirement age.

Effective April 15, 2009, the accrued retirement benefit of participants was frozen at the level earned as of that date. No otherwise eligible employee who had not already reached his entry date and entered the plan on or before April 15, 2009 shall enter and participate in the plan after such date.

In the event a participant becomes totally and permanently disabled as determined by the Social Security Administration, they are entitled to receive the benefit provided by the present value of their accrued benefit. The pre-retirement death benefits are the greater of the present value of the vested accrued benefit and \$1,000 for each \$20 of projected monthly retirement benefit. However, the death benefit for a participant employed beyond their normal retirement date is the present value of their accrued benefit.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

11. Retirement Plans, Continued

All contributions are made by the Authority based on the minimum recommended contribution determined by an actuarial valuation each year. The Authority is providing for the cost of this plan as benefits are accrued based upon actuarial determinations employing the entry age normal actuarial cost method. Contributions are intended to provide for benefits attributed to service earned through the effective date of the freeze of plan benefits.

	(Dollars in Thousands)					
		<u> 2021</u>		2020		
Actuarially determined contribution	\$	1,168	\$	1,719		
Contributions made in relation to the actuarially determined contribution		1,168		1,719		
Contribution deficiency (excess)	\$		<u>\$</u>			
Covered payroll		N/A		N/A		
Contributions as a percentage of payroll		N/A		N/A		

The actuarial valuation of the plan was performed as of January 1, 2021 and 2020 and the measurement date of the net pension liability is as of January 1, 2021 and 2020.

Participant Data

The following is a summary of plan participants at January 1, 2021 and 2020.

	January 1, <u>2021</u>	January 1, <u>2020</u>

11. Retirement Plans, Continued

Assumptions and Other Inputs

The Authority's net pension liability was measured as of January 1, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2021 and 2020.

The following summarizes the significant assumptions used in the valuation:

		<u>2021</u>	<u>2020</u>
 Inflation 		2.50%	2.50%
 Salary increas 	se	N/A	N/A
 Expected rate 	e of return	7.50%	7.50%
 Mortality table 	•	Pri-2012	Pri-2012
 Discount rate 		7.50%	7.50%

The long-term expected rate of return on Plan investments was determined based on the Authority's expectation of best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of rates of return of each major asset class are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Expected <u>Rate of Return</u>
Fixed income	40.00%	3.0% - 5.0%
Equities	55.00%	5.0% - 9.0%
Alternatives	5.00%	6.0% - 12.0%

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from the employer will be made in an amount equal to the actuarially recommended contribution based on funding the unfunded liability over a 10-year period. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Equity securities, mutual funds, money market funds, and real estate investment trusts valued using Level 1 inputs are based on unadjusted quoted market prices within active markets. Debt securities valued using Level 2 inputs are based on a confluence of model drive analysis, matrix pricing, as well as actual trade and market color.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

12. Commitments and Contingencies

Operating Leases

Leases that do not meet the criteria for capitalization are classified as operating leases with related rentals charged to operations as incurred. Rent expense under operating leases is approximately \$3.7 million and \$2.3 million for the years ended September 30, 2021 and 2020, respectively.

Future minimum operating lease payments for noncancelable operating leases are as follows:

	(Dollars I	<u>n Thousands)</u>
2022 2023	\$	1,210
2024		1,012 998
2025 2026		998 998
		5.040
Total	\$	5,216

Compliance Plan

The healthcare industry has been subjected to increased scrutiny from governmental agencies at both the federal and state level with respect to compliance with regulations. Areas of noncompliance identified at the national level include Medicare and Medicaid, Internal Revenue Service, and other regulations governing the healthcare industry. In addition, the Reform Legislation includes provisions aimed at reducing fraud, waste, and abuse in the healthcare industry. These provisions allocate significant additional resources to federal enforcement agencies and expand the use of private contractors to recover potentially inappropriate Medicare and Medicaid payments. The Authority has implemented a compliance plan focusing on such issues. There can be no assurance that the Authority will not be subjected to future investigations with accompanying monetary damages.

Litigation

The Authority is involved in litigation and regulatory investigations arising in the course of business. After consulting with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Authority's future financial position or results from operations. See malpractice insurance disclosures in Note 14.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

13. Employee Health Plan

The Authority has a self-insurance program under which a third-party administrator processes and pays claims. The Authority reimburses the third-party administrator for claims incurred and paid and has purchased stop-loss insurance coverage for claims in excess of \$500 thousand for each individual employee. In addition, the Authority has entered into a loss financing agreement with other Georgia hospitals through a program developed by Georgia ADS, LLC. The program is designed to provide for the financing and payment of covered claims between \$150 thousand and \$500 thousand. Payments received from the program must be repaid over a specified period of time with interest. Under this self-insurance program, \$22.2 million and \$16.2 million was paid or accrued and expensed during the years ended September 30, 2021 and 2020, respectively.

14. Professional Liability Claims

The Authority has purchased commercial insurance to cover professional or general liability claims. The policy is written on a claims-made basis with a self-insured retention amount of \$2.5 million per claim, \$7 million aggregate for fiscal years 2021 and 2020. The Authority uses a third-party administrator to review and analyze incidents that may result in a claim against the Authority. In conjunction with the third-party administrator, incidents are assigned reserve amounts for the ultimate liability that may result from an asserted claim. The Authority also uses independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. The Authority has designated assets to be used for liabilities resulting from claims for which the Authority may ultimately be responsible. Accrued professional claims are included in the financial statements and in management's opinion provide an adequate reserve for loss contingencies. Berrien is insured under a separate commercial policy with deductible amounts of \$25,000 per incident and \$75,000 aggregate.

Various claims and assertions have been made against the Authority in its normal course of providing services. In addition, other claims may be asserted arising from services provided to patients in the past. In the opinion of management, adequate provision has been made for losses which may occur from such asserted and unasserted claims that are not covered by liability insurance as of September 30, 2021.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

15. Fair Values of Financial Instruments

The following methods and assumptions were used by the Authority in estimating the fair value of its financial instruments:

- Cash and cash equivalents: The carrying amount reported in the balance sheet for cash and cash equivalents approximates its fair value due to the short-term nature of these instruments.
- Short-term investments: These assets consist primarily of cash and cash equivalents, equity securities, and mutual funds. The carrying amount reported in the balance sheet for short-term investments approximates fair value. See Note 5 for fair value measurement disclosures.
- Noncurrent cash and investments: These assets consist primarily of cash, equity securities, mutual funds, money market funds, real estate investment trusts, corporate bonds, mortgage-backed securities, collateralized mortgage obligations and U.S. government obligations. The carrying amount reported on the balance sheet for noncurrent cash and investments approximates its fair value. See Note 5 for fair value measurement disclosures.
- Accounts payable, accrued expenses, estimated third-party payor settlements, unearned revenue, and Medicare advanced payments: The carrying amount reported in the balance sheet approximates its fair value due to the short-term nature of these instruments.
- Long-term debt: Fair values of the revenue notes are based on current traded value. The fair value of the Authority's other long-term debt is estimated using discounted cash flow analyses, based on the Authority's current incremental borrowing rates for similar types of borrowing arrangements. Level 2 inputs are used in determining this valuation.

The carrying amounts and fair values of the Authority's long-term debt at September 30, 2021 and 2020 are as follows:

	 (Dollars In Thousands)						
	<u>2021</u>			<u>2020</u>			
	Carrying Amount Fair Value		air Value		Carrying <u>Amount</u>	<u>Fair Value</u>	
Long-term debt	\$ 144,913	\$	154,746	\$	149,726	\$	154,856

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

16. Concentration of Credit Risk

The Authority grants credit without collateral to patients substantially all of whom are local residents of Lowndes County or the immediate surrounding counties of Georgia and Florida and are insured under third-party payor agreements. A significant portion of the net receivables are from patients covered by various government programs such as Medicare or Medicaid. The mix of net receivables from patients and third-party payors was as follows:

	<u>2021</u>	<u>2020</u>
Medicare	36%	24%
Medicaid Blue Cross	13% 26%	11% 19%
Other third-party payors	16%	29%
Patients	<u>9%</u>	<u>17%</u>
Total	<u>100%</u>	100%

17. Health Care Reform

There has been increasing pressure on Congress and some state legislatures to control and reduce the cost of healthcare at the national and state levels. Legislation has been passed that includes cost controls on healthcare providers, insurance market reforms, delivery system reforms and various individual and business mandates among other provisions. The costs of these provisions are and will be funded in part by reductions in payments by government programs, including Medicare and Medicaid. There can be no assurance that these changes will not adversely affect the Authority.

18. Rural Hospital Tax Credit Contributions

The State of Georgia (State) passed legislation which allows individuals or corporations to receive a State tax credit for making a contribution to certain qualified rural hospital organizations. Berrien and Lanier submitted the necessary documentation and were approved by the State to participate in the rural hospital tax credit program effective for calendar years 2021 and 2020. Contributions received under the program approximated \$4.0 million and \$341 thousand during the Authority's fiscal years 2021 and 2020, respectively. These amounts are reported in nonoperating revenue (expenses) on the statements of revenues, expenses, and changes in net position.

NOTES TO FINANCIAL STATEMENTS, Continued September 30, 2021 and 2020

19. <u>Coronavirus (COVID-19)</u>

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen. The outbreak has put an unprecedented strain on the U.S. healthcare system, disrupted or delayed production and delivery of materials and products in the supply chain, and caused staffing shortages. The extent of the impact of COVID-19 on the Authority's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, remedial actions and stimulus measures adopted by local, state, and federal governments, and impact on the Authority's patients, employees, and vendors, all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the Authority's financial position or results of operations is uncertain.

On March 27, 2020, the President signed the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). Certain provisions of the CARES Act provide relief funds to hospitals and other healthcare providers. The funding will be used to support healthcare-related expenses or lost revenue attributable to COVID-19. The U.S. Department of Health and Human Services (HHS) began distributing funds on April 10, 2020 to eligible providers in an effort to provide relief to both providers in areas heavily impacted by COVID-19 and those providers who are struggling to keep their doors open due to healthy patients delaying care and canceling elective services. On April 24, 2020, the Paycheck Protection Program and Health Care Enhancement Act was passed. This Act provides additional funding to replenish and supplement key programs under the CARES Act, including funds to healthcare providers for COVID-19 testing. Grant and contribution advance payments are reported as unearned revenue until all eligibility requirements are met. Recognized revenue is reported as nonoperating revenues in the statements of revenues, expenses, and changes in net position. The Authority received approximately \$38 million in grant stimulus funding in FY 2020, of which approximately \$6 million was recognized as revenue at September 30, 2020. The remaining \$32 million was recognized as revenue at September 30, 2021. The CARES Act funding may be subject to audits. While the Authority currently believes its use of the funds is in compliance with applicable terms and conditions, there is a possibility payments could be recouped based on changes in reporting requirements or audit results.

The CARES Act expanded the existing Medicare Accelerated and Advance Payment (MAAP) program by allowing qualifying providers to receive an advanced Medicare payment. The advanced payment will have to be repaid. Recoupment begins one year after the date of receipt of the advanced payment with 25% of each Medicare remittance advice withheld for the first 11 months of repayment, and 50% for the six months afterward. After the 29-month period, CMS will issue letters requiring payment of any outstanding balance, subject to an interest rate of 4%. In April 2020, the Authority received approximately \$38 million in MAAP payments. Through September 30, 2021, approximately \$10 million of the advance has been repaid. The outstanding balance of approximately \$28 million is recorded in the balance sheet as a current liability as of September 30, 2021.

SCHEDULE OF CHANGES IN NET PENSION LIABILITY AND RELATED RATIOS (In Thousands), Continued September 30, 2021, 2020, 2019, 2018, 2017, 2016, 2015 and 2014

- Changes in assumptions: In 2021, amounts reported as changes in assumptions resulted primarily from adjustments to assumed life expectancies as a result of adopting the sexdistinct Amount-Weighted Blue Collar Pri-2012 Mortality Tables for employees, health annuitants, and contingent survivors with mortality improvement projected using Scale MP-2020 on a fully generational basis. In 2020, amounts reported as changes in assumptions resulted primarily from adjustments to assumed life expectancies as a result of adopting the sex-distinct Amount-Weighted Blue Collar Pri-2012 Mortality Tables for employees and healthy annuitants, with mortality improvements projected using Scale MP-2019 on a fully generational basis and after a review of the Plan's demographics and industry. In 2019, amounts reported as changes in assumptions resulted primarily from adjustments to assumed life expectancies as a result of adopting the sex-distinct Blue Collar RP-2014 mortality tables for employees and healthy annuitants, adjusted backward to 2006 with Scale MP-2014, and then adjusted for mortality improvements with the Scale MP-2018 mortality improvement scale on a generational basis. In 2018, amounts reported as changes in assumptions resulted primarily from adjustments to assumed life expectancies as a result of adopting the sex-distinct Blue Collar RP-2014 mortality tables for employees and healthy annuitants, adjusted backward to 2006 with Scale MP-2014, and then adjusted for mortality improvements with the Scale MP-2017 mortality improvement scale on a generational basis. In 2017, amounts reported as changes in assumptions resulted primarily from adjustments to assumed life expectancies as a result of adopting the sex-distinct Blue Collar RP-2014 mortality tables for employees and healthy annuitants, adjusted backward to 2006 with Scale MP-2014, and then adjusted for mortality improvements with the scale MP-2016 mortality improvement scale on a generational basis. In 2016, amounts reported as changes in assumptions resulted primarily from the change in turnover assumption. In 2015, amounts reported as changes in assumptions resulted primarily from adjustments to assumed life expectancies as a result of adopting the RP-2014 Mortality Table for Annuitants and Non-Annuitants for purposes of developing mortality rates.
- Changes of benefit terms: In 2014, amounts reported as changes of benefit terms resulted primarily from the additional benefits payable under the Early Retirement Window and the related change in assumptions.

Information to present a 10-year history is not reasonably obtainable.

SCHEDULE OF PENSION CONTRIBUTIONS (In Thousands) September 30, 2021, 2020, 2019, 2018, 2017, 2016, 2015 and 2014

SCHEDULE OF PENSION CONTRIBUTIONS (In Thousands), Continued September 30, 2021, 2020, 2019, 2018, 2017, 2016, 2015 and 2014

Methods and assumptions used to determine contribution rates:

Actuarial cost method: Entry age normal

Asset valuation method: Market Value

Salary increases: N/A - plan is frozen

• Investment rate of return: 7.50% per year, compounded annually

Retirement age varies by age and service.

Prior to January 1, 2015, mortality rates were based on the RP-2000 Combined Mortality Table. As of January 1, 2015, mortality rates were based on the RP-2014 Mortality Table for Annuitants and Non-Annuitants, fully generational with projected mortality improvements using Scale MP-2014, with blue collar adjustment. As of January 1, 2017, mortality rates were based on the sex-distinct Blue Collar RP-2014 mortality tables for employees and healthy annuitants, adjusted backward to 2006 with Scale MP-2014, and then adjusted for mortality improvements with the Scale MP-2016 mortality improvement scale on a generational basis. As of January 1, 2018, mortality rates were based on the sex-distinct Blue Collar 2014 mortality tables for employees and healthy annuitants, adjusted backward to 2006 with Scale MP-2014, and then adjusted for mortality improvements with the Scale MP-2017 mortality improvement scale on a generational basis. As of January 1, 2019, mortality rates were based on the sex-distinct Blue Collar RP-2014 mortality tables for employees and healthy annuitants, adjusted backward to 2006 with Scale MP-2014, and then adjusted for mortality improvements with the Scale MP-2018 mortality improvement scale on a generational basis. As of January 1, 2020, mortality rates were based on the sex-distinct Amount-Weighted Blue Collar Pri-2012 Mortality Tables for employees and healthy annuitants, with mortality improvements projected using Scale MP-2019 on a fully generational basis. As of January 1, 2021, mortality rates were based on the sex-distinct Amount-Weighted Blue Collar Pri-2012 Mortality Tables for employees, healthy annuitants, and contingent survivors with mortality improvement projected using Scale MP-2020 on a fully generational basis. This assumption was based on a review of published mortality tables and the demographics and the industry of the Plan.

Information to present a 10-year history is not reasonably obtainable.

INDEPENDENT AUDITOR'S REPORT ON FACILITY INFORMATION

The Board of Trustees
Hospital Authority of Valdosta
and Lowndes County, Georgia
Valdosta, Georgia

We have audited the financial statements of the Hospital Authority of Valdosta and Lowndes County, Georgia (Authority) as of and for the years ended September 30, 2021 and 2020, and our report thereon dated December 14, 2021, which expressed an unmodified opinion on those financial statements, appears on pages 1 through 2. Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The information included in this report on pages 66 through 71, is presented for purposes of additional analysis of the financial statements rather than to present the balance sheet and statement of revenues and expenses of the individual facilities, and is not a required part of the financial statements. Accordingly, we do not express an opinion on the financial position and results of operations of the individual facilities.

This information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audits of the financial statements, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees
Hospital Authority of Valdosta and
Lowndes County, Georgia
Valdosta, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and fiduciary activities of the Hospital Authority of Valdosta and Lowndes County, Georgia (Authority) as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated December 14, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Let's Think Together.®

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
